

DSEN QUERY SUMMARY

DSEN Query Title:	
DSEN Reference Number:	
Submitted by (organization):	
Contact Information:	
<ul style="list-style-type: none"> • Name • Phone • E-mail 	
Proposed DSEN Query Category(ies):	<input type="checkbox"/> Safety <input type="checkbox"/> Comparative Effectiveness <input type="checkbox"/> Urgent Request

DSEN Query Proposal

1.	<p>What is the specific DSEN Query (in the form of a research question)? (If possible, please state the question in terms of <u>specific & measurable objectives</u>, including any pre-specified hypotheses. Ideally, the research objectives would define the intervention(s), clinical problem, population and outcome.)</p> <div style="border: 1px solid black; height: 200px; width: 100%;"></div>
2.	<p>What is the relevant information regarding the drug product(s) for which the DSEN query is being proposed? <i>Please provide the:</i></p> <p>2.1 Name (brand/generic) 2.2 Product Class 2.3 Indication(s) or use(s) of the product and severity of the underlying condition/clinical problem considering risk of death, pain and psychological effects. 2.4 Anticipated number of patients that are using or will use the drug 2.5 Other noteworthy information about the drug product as appropriate</p> <div style="border: 1px solid black; height: 200px; width: 100%;"></div>

3.	<p>What is the knowledge gap that is going to be addressed with this DSEN query? <i>Please consider the:</i> 3.1 degree of urgency for decision makers to obtain new information, 3.2 usefulness of information to decision makers, and 3.3 number of decision makers who could use this information.</p>
4.	<p>What is the current level of evidence available on this issue? <i>Considering previous research in the particular area:</i> 4.1 how critical is the evidence gap to be filled, and 4.2 the likelihood of findings to lead to change in patient health status including safety, effectiveness and comparative effectiveness?</p>
5.	<p>How might the information generated by DSEN research be used by your organization? <i>What is the potential of research findings to:</i> 5.1 be translated into new regulatory, clinical or health service practice 5.2 contribute to cost effective management of the condition or health problem</p>
6.	<p>Are there broader implications of generating the information through DSEN research? (e.g. are there any legal, ethical, equity, political or social implications related to the Query)</p>

To minimize delay in processing your Query, please complete this form to the best of your ability within a maximum of 5 pages (not including any references you deem pertinent).
